DESCRIPTION

I am looking for a job to start in IT, sphere to gain new knowledge and experience. At my last place of work, I have experience in personnel management: selection and placement of specialists, and ability to manage conflict situations. Together with the 1C developer, we worked on new features of the program, and that is why I became interested in testing as a field of work.

WORK EXPERIENCE

07. 2022 - 08. 2022

Trainee QA engineer
